EXPERIENCE

IEI Students' Chapter of CSE – Academy of Technology

West Bengal, India

Design Team Core Member

November 2025 – Present

- Led visual identity and brand guidelines for technical events, producing promotional materials and social media graphics reaching 600+ students.
- Collaborated with cross-functional teams to establish a cohesive visual identity and maintain consistent design language across society initiatives.
- Designed event posters, presentation templates, and social media creatives using Figma and Canva.

URBAN FYNIX

West Bengal, India

Design Lead – Apparel Brand

September 2024 – Present

- Lead a team of 6 designers in creating apparel graphics, marketing campaigns, and visual content.
- Manage design workflows, provide creative direction, and ensure consistency across all brand assets.
- Oversee social media creatives and promotional materials that strengthen brand identity and audience engagement.

InnovateX

West Bengal, India

Designer

May 2026 – Present

- Design visual content and marketing assets for social media platforms while maintaining brand consistency across digital channels.
- Create graphics, promotional materials, and product-related visual designs supporting organizational initiatives.
- Assist in UI/UX design for websites and digital products, contributing to user-centered digital experiences.

Cheap Coddlerz

West Bengal, India

Member – Technical Community

February 2025 – January 2026

- Contributed to collaborative coding projects and open-source initiatives while improving frontend and documentation workflows.
- Participated in hackathons and technical workshops focused on software development and product design.

PROJECTS

Personal Portfolio Website | React, TypeScript, Vite, Tailwind CSS

2026

- Designed and developed a responsive personal portfolio website showcasing projects, design work, and technical skills.
- Built using React, TypeScript, Vite, Tailwind CSS, and TanStack Router with smooth animations powered by Framer Motion.
- Implemented a contact system using React Hook Form, Zod validation, and Web3Forms while maintaining accessibility and performance best practices.

AOTHub Platform UI | *Figma, UI/UX Design*

2026

- Designed a centralized student platform for discovering clubs, communities, workshops, hackathons, and campus events.
- Created high-fidelity screens for club discovery, event registration, student dashboards, and community interaction.
- Applied user-centered design, information architecture, and interactive prototyping to improve student engagement and participation.

Spotify Fit App UI | *Figma, UI/UX Design, Prototyping*

2025

- Designed a music-driven fitness application focused on onboarding, workout selection, and playlist discovery.
- Created end-to-end UI screens, wireframes, and interactive prototypes following a consistent design system.
- Applied visual hierarchy, layout design, color theory, and responsive design principles throughout the project.

ACHIEVEMENTS & CERTIFICATIONS

Achievements

- **UXopia 3.0- Winner** – UI/UX design competition focused on solving real-world user experience challenges.
- **UI Heist (UI/UX Design)** – Secured a Top 8 position in a Figma-based UI/UX challenge emphasizing user-centered design, interface prototyping, and problem-solving.
- **Hack4Bengal 4.0** – Developed innovative solutions under time constraints in a team environment.
- **IEMHacks 3.0** – Built a functional prototype addressing a real-world problem with technical implementation.
- **EDUC-A-THON 2024** – Created an educational technology solution demonstrating creativity and UI/UX thinking.
